Uh... English team here. We probaby woulda left this page out if not for the bubble at the top. This part of the page is all an advertisment none of you would understand, and we didn't want to translate. So, in it's stead, we'll just give you a shortened link to the raw so you can go see the raw and support the author if you want. Hope you guys are enjoying this comic so far, no matter how abrupt the beginning was. We always include the raw link in our descriptions on Batoto, as well as include the website in the credits... but yea. Here.
